PROFESSIONAL SUMMARY

3rd-year B.E. Data Science student with hands-on experience building GenAI systems, RAG pipelines, LLM automation, and MLOps batch jobs. Proficient in Python, TensorFlow, LangChain, FAISS, Gemini API, and Docker. Actively seeking AI/ML or Software Engineering internship roles.

TECHNICAL SKILLS

Languages: Python, C++, SQL, JavaScript

ML / AI: TensorFlow, Keras, Scikit-learn, LangChain, FAISS, Gemini API, OpenCV, Pandas, NumPy

GenAI & Automation: RAG Pipelines, Prompt Engineering, LLM Integration, n8n, Google Apps Script

MLOps & DevOps: Docker, YAML Config, Structured Logging, Reproducible Pipelines, Git, GitHub

Web & Tools: Streamlit, Matplotlib, VS Code, Jupyter Notebook, Google Colab

Core CS: Data Structures & Algorithms, OOP, DBMS

PROJECTS

AI-Powered Resume Analyzer & ATS Scorer

Python · Streamlit · Gemini 2.0 Flash · PyPDF2 · Prompt Engineering

- Built web app using Gemini 2.0 Flash to analyze resumes and generate real-time ATS compatibility scores out of 100.
- Applied prompt engineering for structured JSON output with Strengths, Weaknesses, Missing Keywords, and Suggestions.
- [Live Demo: ai-resume-reviewer-5w6idahgszfrizsezj96a.streamlit.app](#)

RAG-based PDF Question Answering System

Python · LangChain · FAISS · Gemini API · Streamlit

- Built multi-PDF Q&A; app using RAG — chunked and indexed documents with FAISS + Gemini embeddings for semantic retrieval.
- Integrated Gemini LLM via LangChain for context-aware responses; deployed Streamlit UI supporting 10+ documents.

MLOps Batch Pipeline — Trading Signal Engine

Python · Docker · YAML · NumPy · Pandas · Structured Logging

- Built reproducible MLOps batch job processing 10,000-row OHLCV data with deterministic seed control via YAML config.
- Dockerized with full input validation, dual-handler structured logging, and machine-readable metrics.json output.

Semantic Job Intelligence Engine

n8n · Google Gemini API · JavaScript · JSearch API

- Automated end-to-end job pipeline: fetched listings, applied LLM semantic matching, generated cover letters via Gemini.
- Reduced manual job application prep time by ~70% through full n8n workflow automation.

Stock Market Price Prediction System

Python · TensorFlow · Scikit-learn · Streamlit

- Built LSTM time-series model achieving ~85% directional accuracy; deployed interactive Streamlit prediction dashboard.

Image Classification using CNN

Python · TensorFlow · Keras · OpenCV

- Trained CNN for multi-class classification achieving ~88% validation accuracy; evaluated with confusion matrix and precision/recall.

CERTIFICATIONS

- J.P. Morgan Software Engineering Job Simulation — Forage (Mar–Apr 2026) [\[View Certificate\]](#)
- Deloitte Technology Job Simulation (Tableau & Excel) — Forage (March 2026) [\[View Certificate\]](#)
- Data Science Using Python — NPTEL, Ministry of Education, Govt. of India (Jul–Oct 2025) [\[View Certificate\]](#)
- ChatGPT & AI Tools Workshop — be10x (September 2024) [\[View Certificate\]](#)

EDUCATION

B.E. in Computer Science and Engineering (Data Science) — 2023–2027

BLDEA's V.P. Dr. P.G. Halakatti College of Engineering & Technology, VTU, Belagavi
